

For You

Charlotte Sometimes

You go your own way and know those streets by name
And you close your heart so things can stay the same
But sweetheart know it's time to show
Everything you got
Everything you're not

So take it
Even if you break it
Go ahead and make it
Make it something new

And when you wake up
Put away that make up
Go ahead and shake up
Shake up all you knew
For you

All the light you hide behind your door
They've tried to see a million times before
But sweetheart I know wherever you go
In the deepest dark
You still give off a spark

So take it
Even if you break it
Go ahead and make it
Make it something new

And when you wake up
Put away that make up
Go ahead and shake up
Shake up all you knew

'Cause the sky will open wide
All the clouds will start to cry
You will taste the tears that are running down your face

But what you had to give up
To the one that got to love
Is walking in your shoes and standing in your place

So take it
Even if you break it
Go ahead and make it
Make it something new

And when you wake up
Put away that make up
Go ahead and shake up
Shake up all you knew
For you

For you

For you
