

# Just Enough

Charlotte Sometimes

When we sit still  
Babe, I know that you will, but you don't  
Hear my kiss oh so loud  
And how sad, and rewind

The wait is just enough  
The wait is just enough

You're here and now feel like more  
Of romance I ask how  
You are sure you don't know  
Darling, now I can hope

Wait, the wait is just enough for me  
The wait, the wait is just enough for me

And when your heart says  
We're better off alone  
That just says it all  
But you can't deny  
Oh, you can't deny  
Oh, you can't

Oh, wait, the wait is just enough for me  
The wait, the wait is just enough for me
