

Second Best

Charlotte Sometimes

Last night in bed I caught you dreaming
Although the one who keeps on stealing
The days from us, it's never peaceful
You hold me close and I'm wide awake

Can we live in the moment that belongs to us?
Can we live in the moment that's just the two of us?
Can we live in the moment that was made for us?
Can we? Can we live in the moment?

Cause every time I hear that name
It's like a crystal glass
Breaking like a splinter in matches
Hey you, you made me second best
You made me second best

That day with you, I've got an answer
She grows inside, you're like a cancer
Four years with that and now I'm chasing
A heart that I have mistaken

Can we live in the moment that belongs to us?
Can we live in the moment that's just the two of us?
Can we live in the moment that was made for us?
Can we? Can we live in the moment?

Cause every time I hear that name
It's like a crystal glass
Breaking like a splinter in matches

Hey you, you made me second best
You made me second best

I want this sky to be only for each other
I don't want secrets to be hidden undercover
Can we forget the past and hope there's no other?
So hold me close, I am wide awake

Can we live in the moment that belongs to us?
Can we live in the moment that's just the two of us?
Can we live in the moment that was made for us?
Can we? Can we live in the moment?

Can we live in the moment that belongs to us?
Can we live in the moment that's just the two of us?
Can we live in the moment that was made for us?
Can we? Can we live in the moment?

Cause every time I hear that name
It's like a crystal glass
Breaking like a splinter in matches
Hey you, you made me second best
You made me second best

You made me second best
