

Camera

Charly Bliss

Someone used my card to buy a camera in California
\$556'll get you almost nowhere
Maybe my card company just prevented a masterpiece
Or something sick and twisted but I'll never know for sure

Everything is coming
Not sure what I should be learning from it
How can I convince you not to stay?
Always either running or I'm always overflowing from it
If you think it's bad today, just wait

Sometimes on the street, I see your face on someone else's
Always at a crosswalk in some state you'd never been
If I could conjure you with a thought
You'd be everywhere - but you're not
I'm watching over walk signs from my window just in case

Everything is coming
Not sure what I should be learning from it
How can I convince you not to stay?
Always either running or I'm always overflowing from it
If you think it's bad today, just wait

Contraceptive hollow
One more pill to swallow
When he follows me the light inside my stomach dies

Everything is coming
Not sure what I should be learning from it
How can I convince you not to stay?
Always either running or I'm always overflowing from it
If you think it's bad today, just wait

Someone used my card to buy a camera in California
\$556'll get you almost nowhere
