Friends

Charly Bliss

This is one to grow on
I think this is one to grow on
I'm observant from a distance as you
Calculate my function

And in the photographs, we're smiling
In my photographs, we're smiling
I remember feeling happy 'cause I'm
Trained to keep on trying

I wanna be your friend
But I don't wanna have to try for it
I wanna be your friend
But I'm so lonely I could die from it

I wanna be your friend
But I don't wanna have to try for it
I wanna be your friend
But I'm so lonely I could die from it
That I could die from it

Well, tell me how you're wired
If it hurts, my hopes are higher
When my hands are on your mouth
Do you feel safe or just too tired?

I wanna be your friend
But I don't wanna have to try for it
I wanna be your friend
But I'm so lonely I could die from it

I wanna be your friend
But I don't wanna have to try for it
I wanna be your friend
But I'm so lonely I could die from it
That I could die from it

I wanna be your friend
But I don't wanna have to try for it
I wanna be your friend
But I'm so lonely I could die from it

I wanna be your friend
But I don't wanna have to try for it
I wanna be your friend
But I'm so lonely I could die from it
That I could die from it
