

Cardboard cereal eating me inside
From across your room, I saw
Second cousins kissing on the lawn
We will never speak again

Would you believe me if I was right? (I was right)
Scar on your face from the birthday fight (birthday fight)
I want to touch you, I want to cry (want to cry)
Floating above you, I think I might

Twenty three and your knee is gonna blow
It's so weird to be on the
Outside, hulking out, seething in the yard
Now I bite my hair and think
I hate looking at you now
'Cause I can't get over it

Would you believe me if I was right? (I was right)
Scar on your face from the birthday fight (birthday fight)
I want to touch you, I want to cry (want to cry)
Floating above you, I think I might

We can get along, sweet golden dog
Had to wait so long for a sister
Plane is taking off, follow the thought
Baby's gonna pop so I shrink her
We can get along, sweet golden dog (Westermarck...)
Had to wait so long for a sister (I can't hear you)
Plane is taking off, follow the thought (Westermarck...)
Baby's gonna pop...

Would you believe me if I was right? (I was right)
Scar on your face from the birthday fight (birthday fight)
I want to touch you, I want to cry (want to cry)
Floating above you, I think I might
(Ahhh-ahhhh, ahhh-ahhhh-ah)

Plane is taking off, follow the thought
Baby's gonna pop so I shrink her
We can get along, sweet golden dog (Westermarck...)
Had to wait so long for a sister (I can't hear)
