

# Blue

Charly McClain

Blue, I was beginning to think  
I'd always be blue  
Guys never seem to follow me  
True, I never thought I'd find  
Blues, in these eyes of mine

You came along just as I were falling  
Then, I found myself  
Falling in love with you

I can't remember back then  
To the time when I was lonely  
All thanks to you  
I'm no longer blue

Blue that's how I feel like I'm your special one  
Two hearts learning to love  
We just begun

I'm through, with the past  
That's all behind me now  
Blue, not this time around

You came along just as I was falling  
Then, I found myself  
Falling in love with you

I can't remember back then  
To the time when I was lonely  
All thanks to you  
I'm no longer blue

All thanks to you  
I'm no longer blue
