

# Competition

Charly McClain

Look out, look out, look out for the competition  
If he wants to play, someone will take him away from the same old repetition  
So watch out, watch out, we're out on exhibition  
It could be a friend who's playing to win so look out for the competition

So tonight in his arms, better turn on the charm  
Make him feel like you did the first time  
Cause the name of the game is always the same  
Better lay your cards on the line

And look out, look out, look out for the competition  
If he wants to play, someone will take him away from the same old repetition  
So watch out, watch out, we're out on exhibition  
It could be a friend who's playing to win so look out for the competition

Look, I don't know your limitations, adapt to the situation  
So look out, look out, look out for the competition

If you're holding him tight and you're treating him right  
Then cheating won't be crossing his mind  
Don't you ever let go, let your sweet lovin' flow  
Cause someone else is easy to find

And look out, look out, look out for the competition  
If he wants to play, someone will take him away from the same old repetition  
So watch out, watch out, we're out on exhibition  
It could be a friend who's playing to win so look out for the competition

Look out, look out, look out for the competition  
Look out, look out, look out for the competition  
Just look out, look out, look out for the competition  
Look out, look out, look out for the competition  
Just look out, look out
