

# I Think I Could Love You (Better Than She Did)

Charly McClain

You don't need to thank me  
I'm not here to be your friend  
I won't even hold you if you cry  
And I ain't to help you patch it up with her again  
I'm just glad she finally said goodbye

You know I think I could love you better than she did  
I'd like the chance to try  
You know I think I could love you better than she did  
Get ready and I'll show you why

Just be half as good to me as you'd been to her  
And I'll be waiting any time you call  
Turned you every way but loose, I'm gonna love you blind  
I'll make sure you don't miss her at all

Because I think I could love you better than she did  
I'd like the chance to try  
You know I think I could love you better than she did  
Get ready and I'll show you why

Because I think I could love you better than she did  
I'd like the chance to try  
You know I think I could love you better than she did  
Get ready and I'll show you why

'Cause I think I could love you better than she did  
I'd like the chance to try  
You know I think I could love you better than she did  
Get ready and I'll show you why
