

Keep On Lovin' You

Charly McClain

You give me lovin' so easy and sometimes that ain't easy
You take me wonder and crazy and sometimes I get crazy
When the world outside seems like it's falling apart
You hold me so close take me straight to your heart
I wanna keep on lovin' you keep on needing you
Living out the love we feel inside

And as the years come and go there's one thing I know
I just wanna keep on lovin' you
Darling I just wanna keep on lovin' you

If I was lost on life's ocean like the last time she drowned me
If I was feeling lonesome and you be back beside me
And if the cold wind would blow and the rain wouldn't stop
You hold me so close take me straight to your heart
I wanna keep on holding you I keep on needing you
Giving out the love we feel inside

And as the years come and go there's one thing I know
I just wanna keep on lovin' you
Darling I just wanna keep on lovin' you

Darling I just wanna keep on lovin' you
I just wanna wanna keep on lovin' you
I just wanna wanna keep on wanting you
I just wanna wanna keep on lovin' you
