

Until I Fall In Love Again

Charly McClain

Look at me, like a crazy fool
Comin' here, callin' on you like this
Just like we never said goodbye
I know it's late, but your memory
Keeps comin' round and just won't let me sleep
There's just one thing I'm askin' of you
Just one thing that I need

Until I fall in love again
Would you hold me in your arms?
'Cause the nights can be so long (Ooh)
Spendin' them all alone
I need you to hold me when I cry
Through all these lonely times
Just every now and then (Every now and then)
Until I fall in love again

Don't get me wrong, try to understand
It's times like these I just need a friend
That's what you've always been to me
And though our love has come and gone
Would you mind if I leaned on you 'til I'm strong
Here I am, with my heart in my hand
Beggin' you to help me hold on

Until I fall in love again
Would you hold me in your arms?
'Cause the nights can be so long (Ooh)
Spendin' them all alone
I need you to hold me when I cry
Through all these lonely times
Just every now and then (Every now and then)
Until I fall in love again

Every now and then (Every now and then)
Until I fall in love again
