

You Are My Music, You Are My Song (with Wayne)

Charly McClain

C: It's late afternoon & I just got home
Been missin' you all day
Music is low on the stereo
But I know every word they say
I love to listen to old love songs
I always find myself singin' along
But they don't move me the way you do

You are my music, you are my song
Your love is a melody that plays on & on
Whenever you're near, the sound that I hear
Is the sweetest thing I've known
You are my music, you are my song
W: I'm drivin' home in the 5:00 rush
The way I always do
The radio's on & every love song
Makes me think of you
You can be just like rock & roll
Or you can play it soft & slow
You keep my whole life in perfect harmony

BOTH: Tonight I'll touch you & hold you in my arms
I feel the rhythm of the beating of our hearts
