House Fire

Charm City Devils

I'm gonna set this house a fire,
I'm gonna set this house a fire,
I'm gonna set this house a fire,
I'm gonna burn this building down,

Atlas shrugged the whole damn world,
Fell down to it's knees,
The rich keep getting richer,
The poor gets more disease,
See the slaves out in the field,
They sing to fight the heat,
The bloody hands wash the bloody dirt,
Off their bloody feet,

On my own,
On my way,
On this one way ride,
I don't wanna buy a ticket,
I don't wanna stand in line,

Set this house a fire,
I'm gonna burn this building down,
Set this house a fire,
I'm gonna grind it in the ground,

The man tried to drag me in,
The man tried to hold me down,
He told me what to say and do,
He said I can't get out,
But I know how to throw this rock,
And I've got a baseball bat,
And I've got a knife and the knowledge,
To cut out the heart and cut out the fat,

On my own,
On my way,
On this one way ride,
I don't wanna buy a ticket,
I don't wanna stand in line,

Set this house a fire,
I'm gonna burn this building down,
Set this house a fire,
I'm gonna grind it in the ground,

Gasoline and cigarettes,
Free cocaine and no regrets,
Esacalades and big jet planes,
Going down in flames,

Set this house a fire,
I'm gonna burn this building down,
Set this house a fire,
I'm gonna grind it in the ground.
