Night Is Dark

Charm City Devils

Momma can you hear that baby cryin'
Momma can you hear that grandma dyin'
The moon's not shining gold
Night is dark and cold
No one hears the pain
You hide deep in your soul

Oh!
All right!

Momma can you see this war were fighting
Blood is flowing boys are dying

The moon's not shining gold
Night is dark and cold
No one hears the pain
You hide deep in your soul

Oh!
My sweet sweet lover's heart
So sad we have to part
My sweet sweet lover's heart
So sad it's gone too far

Climbing up that mountain
Fighting back that storm
Climbing up that mountain
Fighting back the storm

No, no, no, no no!

Momma can you hear that baby cryin'
Momma can you hear that grandma dyin'

The moon's not made of gold
Night is dark and cold
No one hears the pain
Deep in your soul

My sweet sweet lover's heart
So sad we have to part
My sweet sweet lover's heart
Too bad it's gone this far

Climbing up that mountain
Fighting off the storm
Climbing up on that mountain
Climbing up on that mountain
Climbing up on that mountain
Fighting back the storm

No, no, no, no, no...
