True Love (Hell Yeah)

Charm City Devils

Can I get a hell yeah
Can I get a good lord
Can I get a one-two
Fighting for my life and I found true love

Standing at the crossroad angry young man
Asked the good lord which road do I take
If I take the low road it'll get me there faster
If I take the high road it'll make me wait

Stand before the mountain full grown man
Looking up and down no road to take
I can cut a hole now straight through the mountain
I can cut a hole my back ain't gonna break

I smell blood
It's not enough

Can I get a hell yeah
Can I get a good lord
Can I get a one-two
Fighting for my life and I found true love

Can I get a hell yeah
Can I get a good lord
Can I get a one-two
Fighting for my life and I found true love

Standing at the crossroad tired old man
Said oh good lord which road did I take
By the time I took the high road it took so long
That I jumped on the low but still I wait

Dying old man standing at the crossroad
Oh good lord which road did I take
I done lived with angels and devils
I done lived with love and hate

I smell blood
It's not enough

Can I get a hell yeah
Can I get a good lord
Can I get a one-two
Fighting for my life and I found true love

Can I get a hell yeah
Can I get a good lord
Can I get a one-two
Fighting for my life and I found true love

Hell Yeah
Can I get a hell yeah
Can I get a hell yeah
Can I get a hell...yeah

Can I get a hell yeah

Can I get a good lord
Can I get a one-two
I've been fighting for my life

I smell blood
It's not enough

Can I get a hell yeah
Can I get a good lord
Can I get a one-two
Fighting for my life and I found true love

Can I get a hell yeah
Can I get a good lord
Can I get a one-two
Fighting for my life and I found true love
