

## Desire You

Charon

Don't say a word, don't stay awake  
Rest for a while, for a life  
Sleep quiet my heart, I don't need you now

And it makes me want  
To fall

Darkness calling, come to reap me from my love  
I desire you, for all my heart I've come to this

Burn slow my heart, I won't weep you now

And it makes me want  
To die

Say one more prayer to fall desire  
Save one more heartbeat to cry
