Chase Atlantic

She's been down the darkest roads  
She's been all alone  
Strangers seem to come and go  
Helps her business grow, yuh  
Daddy didn't want your love  
He fucked you up  
He lost your love  
He took your heart  
She put a price on her body  
You want it, you pay up  
A trip to Dubai or Miami  
Just so she can lay up

Well, business is business  
And girl, I know you're on your way up  
Baby, wait up  
If you're gonna fuck him for money  
Make sure you don't play up  
She said

Baby, come and work for me  
I can give you love for free, yuh  
Baby, come and work for me  
I can give you love for free, yuh  
You're doing acrobatics with your body  
Let the money fall like those leaves, yeah  
You told me that you're done with this life  
But your friends all disagree, yuh

She said, "I can give you love for free," yeah, yeah  
She said, "I can give you love for free" no-no, babe  
She said, "I can give you love for free" no-no, no-no  
Girl I got what you need, yuh, oh-oh

The penthouse we rented  
Said, "I love you," I meant it  
The view was expensive  
So you show me affection  
And I know you're stuck in your ways  
Usually wanna get paid  
Usually nothing to say  
Usually grams in the face, but  
Old friend, new friend  
Where the fuck's the balance?  
Backstabbing, black hearts  
Followed you from Dallas (yuh)

Well, business is business  
And girl, I know you're on your way up  
Baby, wait up  
If you're gonna fuck him for money  
Make sure you don't play up  
She said

Drifting away  
Drifting away  
She's sick of this place  
New men every day  
She wants a new life to live  
She wants to feel safe

Drifting  
One needle is enough to make a difference  
She needs way more than love  
She needs commitment  
I'll sail you away  
Let's fuck off this place  
And we can keep on drifting...

Drifting  
Drifting  
Drifting  
Yeah
