

Pour another bottle to the floor, love  
Pushin' for it, oh, you know I want some  
'Cause everything you do is screaming "more drugs"  
It's kinda sad but it's awesome

Oh, we've lost it  
Screeching off with no names  
She said, "Watch this"  
With her hands in the rain  
Call it conflict, as you should  
And you ain't gonna stop this, stop this

And you keep on falling, baby, figure it out  
Just drive slow, straightforward, or I'm walking around  
And your dad keeps calling, tell him, "Cut that shit out"  
Just keep steering, keep steering now

We're pulling up to where you used to work at  
Well tell 'em that you're finished, yeah, you mean that  
Just take all you can grab  
No receipt, tax  
It's so illegal, but I like that

Oh, we've lost it  
Screeching off with no names  
She said, "Watch this"  
With her hands in the rain  
Call it conflict, as you should  
And you ain't gonna stop this, stop it  
Stop it, yeah

And you keep on falling, baby, figure it out  
Just drive slow, straightforward, or I'm walking around  
And your dad keeps calling, tell him, "Cut that shit out"  
Just keep steering, keep steering now

She said, "Watch this"  
Oh, yeah  
Oh, we've lost it  
She said, "Watch this"  
Call it conflict, please, call it conflict

And you keep on falling, baby, figure it out  
And you keep on falling, baby, figure it out  
Just drive slow, straightforward, or I'm walking around  
And your dad keeps calling, tell him, "Cut that shit out"  
Just keep steering, keep steering now
