MOLLY

Chase Atlantic

Yeah
Yeah, yeah

Been on and off my whole life
Shit, I've been nodding off the whole night
Why rip the heart out of my chest?
Why waste your time? There's nothing left inside
Driving through a city full of static
I was in a Phantom dodging traffic, yeah
I said, "Fuck the Addys, fuck the Xanax," yeah
She was all I needed, she was magic

Molly, you were there for me
When no one ever cared for me, you tried
Thank you for getting me high, oh, I

Molly, you would lie to me
And tell me everything would be alright (Alright, alright)
But then you left me to die (To die), it's goodbye, yeah
So I might give you up, no, I don't give a fuck
I got the police behind me, I'm doing 91
I'm singing, "Molly, it's the end for me"
"You'll always be a friend to me, for life"

Yeah, she's been fighting with me all night
Feeling sedated, but I'm alright, yeah
She takes a half, I take the rest
I told her, "Meet me on the steps outside"
I can't see the stars because they're dancing
I've been ducking, dipping, dodging traffic
Popping lots of pills because I'm anxious
She's the one who turned me to an addict

Molly, you were there for me
When no one ever cared for me, you tried
Thank you for getting me high, oh, I

Molly, you would lie to me
And tell me everything would be alright (Alright, alright)
But then you left me to die (To die), it's goodbye, yeah
So I might give you up, no, I don't give a fuck
I got the police behind me, I'm doing 91
I'm singing, "Molly, it's the end for me"
"You'll always be a friend to me, for life"
