

## Now

Chase Atlantic

Now tell me what would you do put in my position?  
Waking up confused and with a new addiction  
I say I'm addicted to this life I chose  
She thinks I'm addicted to that powder though

She said, "hit me twice so I can really feel it"  
I'm not trying to hit you, girl, that shit's forbidden  
I'm up in the forest trying to kill demons  
Standing with a hand full of pills screaming

It's right now, right now  
I ain't got the time to fuck around now  
Everybody told me to settle down but  
It's right now, right now

It's right now, right now  
Only got one bullet make it count, yea  
I ain't got the time to fuck around  
It's right now, right now

She told me to quit it, yeah, I gotta listen  
I'm not trying to kill my central nervous system  
I've been staying sane enough to let it go  
Once I get ahold of it, I let a blow

Maybe we should talk about this new decision  
Everyone believing like a new religion  
I just took another, now I'm so gone  
What I'm feeling now it's taking to long

It's right now, right now  
I ain't got the time to fuck around now  
Everybody told me to settle down but  
It's right now, right now

It's right now, right now  
Only got one bullet make it count, yea  
I ain't got the time to fuck around  
It's right now, right now

This is the way  
Baby, ride it like a motherfuckin' tidal wave  
I've been putting in the work every single day  
Yeah, this is that real shit  
We just sign the deal, shit  
This going real quick  
Yeah, this is the way  
We are out in L.A.  
Finally getting fucking paid now  
Now this is the way, way  
We ridin' the wave, wave, wave  
This is the way

It's right now, right now  
I ain't got the time to fuck around now  
Everybody told me to settle down but  
It's right now, right now

It's right now, right now  
Only got one bullet make it count, yea  
I ain't got the time to fuck around  
It's right now, right now
