

It feels like heaven on the inside
She's calling my name and, oh, it sounds nice
The way that you're dancing in the moonlight
I think I'm falling in love with all these big signs

Well she said, "How you feeling? Are you lost again?"
No, we don't need directions from you or your friends
We're speeding through the city 'cause you'll see the end
Just tell us where to go and we'll be there in ten

And she walks down
I noticed how she does it for real now
And she talks loud
She's telling me what I wanna hear now
Is it real now?
How do I know for sure?

She's always hanging with the wrong guys
She's caught up in lights, you know, the big kind
If I make it right then we can leave time
I know I said it before, yeah it just sounds nice

Well she said, "How you feeling? Are you lost again?"
No, we don't need directions from you or your friends
We're speeding through the city 'cause you'll see the end
Just tell us where to go and we'll be there in ten

And she walks down
I noticed how she does it for real now
And she talks loud
She's telling me what I wanna hear now
Is it real now?
How do I know for sure?

She calls me in the middle of a Sunday night
I'm falling just a little baby, shit ain't right
She calls me in the middle of a Sunday night
I'm falling just a little baby, shit ain't right

And she walks down
I noticed how she does it for real now
And she talks loud
She's telling me what I wanna hear now
Is it real now?

And she walks down
I noticed how she does it for real now
And she talks loud
She's telling me what I wanna hear now
Is it real now?
How do I know for sure?
