

Talk Slow

Chase Atlantic

Talk slow
I've been listening all night
And your words they sound so right
Well I, I know
That you came here with some guy
Well tell him go home
It's you and I

Cause I've been thinking 'bout taking the week off
So we can kick it and see where this takes us
And then you say we should just skip the basics
You put your hand on my mouth, I don't say sh...
Ooh this feels so right
And girl I know just why
Because it's you and I

Well we go
Where the heart is
And they don't know
Where we started
So just talk slow
Talk real slow
And just hold on
For the time being
And when you're done
Come and find me
And then they'll know
To talk slow

Well, talk slow
We're breathing in the air
And I think we're almost there
Well don't, don't you go
I need you here, I swear
As you lead me up the stairs
