

WHAT U CALL THAT

Chase Atlantic

Too damn high, whatchu' call that?
Sorry that I took my time to call back
I don't wanna spend time with your family
Cause I'm afraid I'll run my mouth and start rambling, wait

I know that your dad doesn't like me
High-key
Cocaine stains on my Nikes

Gucci on my neck it's gold lightning
Just ignore that

Seven-headed snake, whatchu' call that?
Bleeding like an open scar

Lost a little money, made it all back
Luckily I work this hard

Vision kinda blurry, whatchu call that?
Might've hit the blunt too hard

I can't feel my god damn face
Grip the wheel if I drive too fast

Smile and see the gold teeth
Gold rings on my fingers make your face bleed

Hide up in the hills pop a seal under palm trees
Feel the land slide, then I lose my damn mind

I know that your brother wants to fight me
High-key
Gucci knuckles so I hit him lightly

If you wanna talk, do it nicely
Or don't call back
Tell me whatchu' call that

Seven-headed snake, whatchu' call that?
Bleed it like an open scar

Lost a little money, made it all back
Luckily I work this hard

Vision kinda blurry, whatchu call that?
Might've hit the blunt too hard

I can't feel my god damn face
Grip the wheel if I drive too fast
