

# How Do You Do It

Chase Bryant

Still see the sun coming up in my truck  
Over that horizon, yeah  
I'm holding you and you're holding me and those blue eyes of yours are shining

I'd never felt nothing like that  
No, I've never fallen like this

How do you do what you do when you do it to me?  
Tell me, baby  
How do you reach into my heart  
Into my soul, make me believe?  
Believe like crazy  
In us, in this love and the power of a touch  
How do you do it, baby?  
Oh, how do you do it?

Every moment with you lasts forever 'cause they're all making memories  
Yes, they do  
Every time you walk into the room  
Every time you smile, girl  
Every time you kiss me, ooh, yeah

I can't get you outta my head  
Girl, I want you here every night

How do you do what you do when you do it to me?  
Tell me, baby  
How do you reach into my heart  
Into my soul, make me believe?  
Believe like crazy  
In us, in this love and the power of a touch  
How do you do it, baby?  
Yeah

How do you do what you do when you do it to me?  
Tell me, baby  
How do you reach into my heart  
Into my soul, make me believe?  
Oh, 'cause I believe like crazy  
In us, in this love and the power of a touch  
How do you do it, baby?

I gotta know, I gotta know  
How do you do it?  
Yeah, girl, you blow my mind every time  
I gotta know how you do it, honey  
Yes, I do  
Oh
