

# Love You My Whole Life

Chase Bryant

Like a quick draw shot straight to the heart  
You finish everything I could never start  
It's like watching magic happen  
Holding in all talking in light  
Talking in tongues but I understand it  
Just from hearing you laughing

You're like a night train flying out of Memphis  
Homerun swinging for the fences  
Dancing in your living room slow to 'Fire and Rain'  
You're like a long-lost love outta nowhere  
Thing you never find  
You make me feel alive  
And I know why

I been waiting to love you my whole life  
I been waiting to love you my whole life

I was addicted to red, couldn't hold back  
Saw it in red and put it all on black  
Losing hands is automatic  
Then she came in and changed my mind  
Like a thunderbolt falling bright from the sky  
And she cut through all the static

Cause you're like a night train flying out of Memphis  
Homerun swinging for the fences  
Dancing in your living room slow to 'Fire and Rain'  
You're like a long-lost love outta nowhere  
Thing you never find  
You make me feel alive  
And I know why

I been waiting to love you my whole life  
I been waiting to love you my whole life

No, I can't explain it  
You're love keeps on raining on me  
And I know why

You're like a night train flying out of Memphis  
Homerun swinging for the fences  
Dancing in your living room slow, 'Fire and Rain'  
You're like a long-lost love outta nowhere  
Thing you never find  
You make me feel alive  
And I know why  
You make me feel alive  
And I know why

I been waiting to love you my whole life  
I been waiting to love you my whole life  
I've been waiting to love you my whole life
