

## Practice

Chase Coy

Holy water  
From the faucet  
Wash my hands clean  
Wash this off them

Makes no difference, now  
If you mean it  
Far too late to  
Save this evening

I was wrong to think that we could make it past this  
Nothing's a reminder like the past is  
We were careless and we loved like it was practice  
We loved like it was practice

We were careless, (baby we were young and reckless)  
We were careless, (baby we were young and reckless)  
We were careless and we loved like it was practice  
We were careless, (baby we were young and reckless)

If you loved me, you wouldn't have lost me  
It's so clear here in the aftermath  
And if you needed something to believe in  
You should've started with what you had

I was wrong to think that we could make it past this  
Nothing's a reminder like the past is  
We were careless and we loved like it was practice  
We loved like it was practice

We were careless, (baby we were young and reckless)  
We were careless, (baby we were young and reckless)  
We were careless and we loved like it was practice  
We were careless, (baby we were young and reckless)

We were careless, (baby we were young and reckless)  
We were careless, (baby we were young and reckless)  
We were careless and we loved like it was practice  
We were careless, (baby we were young and reckless)

I was wrong to think that we could make it past this  
Nothing's a reminder like the past is  
We were careless and we loved like it was practice  
We loved like it was practice
