

Cold Blooded

Chase Matthew

I tried to warm her heart, but man I wish I would've known
That no matter where it's winter, everywhere she goes
She don't want me, don't need me, but I'm hanging on
All cause someone at one time did her wrong
Now, every time it rains, I see her tears turn into snow

She's so cold -blooded, got ice in her veins
She can't feel nothin'
Numbing' up the pain and trustin' nobody, and I can't blame
She's holdin' on to somethin' that I can't change

She's so cold blooded
So damn cold blooded
Man, she's so cold blooded
So damn cold blooded

All is said and done, she won't let her guard down, down for anyone
Her love is on lockdown
Still
I want to make her feel what it's like to trust for real
Wish she could warm up and finally heal
Wish she could love me, but she never will

She's so cold blooded
Got ice in her veins
She can feel nothing
Numbing up the pain and trust in nobody
And I can't blame
She's holding on to something that I can't change

She's so cold blooded so damn cold -blooded
Man, she's so cold -blooded
So damn cold -blooded

She don't want me, don't need me, but I'm hanging on
All 'cause someone at one time did her wrong
Now, every time it rains I see her tears turn into snow, no
She's so cold -blooded, cold -blooded
Got ice in her veins
She can't feel nothing
Numbing up the pain and trusting nobody
And I can't blame
She's holding on to something that I can't change

She's so cold blooded
So damn cold blooded
Man, she's so cold blooded
So damn cold blooded
