

Every Word I Say

Chase Matthew

First sight with locked eyes, I loved your name
And I got cold chills like we were dancin' in the rain
Sometimes, my imagination gets the best of me
But I finally found the woman of my dreams
And some things I need to say before you go
You should probably know

I want you to feel wanted
Even when you're feelin' daunted
Know everything of you, I want it
You were so beautifully made, so beautifully made
God made you perfect
For me, but I don't deserve it
And all this waitin', you made worth it
And as you go on your way
Just know that I mean every single word I say
That I say

First date, we held hands, I kissed your lips
Five minutes in, I knew what I was gonna miss, oh
If I didn't tell you the way I feel, yeah
I'm really thinkin' that there's somethin' real here
Some things I need to say before you go
Girl, you should probably know

I want you to feel wanted
Even when you're feelin' daunted
Know everything of you, I want it
You were so beautifully made, so beautifully made
God made you perfect
For me, but I don't deserve it
And all this waitin', you made worth it
And as you go on your way
Just know that I mean every single word I say

I might be in over my head right now, but
My heart is lost, some place it could be found is
Right there with you wherever you go
But just so you hear me, darlin', I'll make it known

I want you to feel wanted
Even when you're feelin' daunted
Everything of you, I want it
And you were so beautifully made, so beautifully made
God made you perfect
For me, but I don't deserve it
And all this waitin', you made worth it
As you go on your way
Just know that I mean every single word I say, yeah
Every single word I say
