

# FIRE IN HER EYES

Chase Matthew

A neon night, a black slip dress  
Should've said "no", so I had to say "yes"  
Put a little more than a buzz in my head  
Lord knows I don't stand a chance tonight  
She's got me mesmerized  
Right there in the palm of her hands, tryna fan

A little fire in her eyes  
Set a whole damn town ablaze  
There ain't a rain cloud in the sky  
To make smoke out of her flames

I want everything she's got  
That girl, she's burning hot  
The devil in disguise  
Yeah, tonight I'm getting burned by  
A little fire in her eyes, mmm  
A little fire in her eyes

Yeah, I've been there before, I know how it ends  
Nah, it ain't the green-grass side of the fence  
A caressing kiss got me all lost in

A little fire in her eyes  
Set a whole damn town ablaze  
There ain't a rain cloud in the sky  
To make smoke out of her flames

I want everything she's got  
That girl, she's burning hot  
The devil in disguise  
Yeah, tonight I'm getting burned by  
A little fire in her eyes, mmm  
A little fire in her eyes, mmm

Just one look, and she's striking matches  
Oh  
You know that girl leaves me in ashes

With that little fire in her eyes  
Set a whole damn town ablaze  
There ain't a rain cloud in the sky  
To make smoke out of her flames

Yeah, I want everything she's got  
That girl, she's burning hot  
The devil in disguise  
Yeah, tonight I'm getting burned by  
A little fire in her eyes, mmm  
A little fire in her eyes, mmm
