

First

Chase Matthew

I met a girl last night
She reminded me a lot of you
Bought her a vodka Sprite
And we talked till almost two

Been tryin' to get back in the game
But they all come in second place
No matter how hard that I try
It just don't feel the same

You were the first one to ride in my CJ-7
Top off, runnin' down an old backroad
First time to knock dust off the bottle
While it played on the radio
First buzz on my twenty first
First taste of goodbye hurt
It's hard to love anybody else
When I loved you first

I loved, I loved you
I loved you first
I loved, I loved you

I love the first time you called me, "Baby"
In a booth in the back of a bar
I love the first kiss that you gave me
You sure had me seein' stars

Been tryin' to get back in the game
But my heart don't wanna play
'Cause all I see it you and me
And it feels like yesterday

You were the first one to ride in my CJ-7
Top off, runnin' down an old backroad
First time to knock dust off the bottle
While it played on the radio
First buzz on my twenty first
First taste of goodbye hurt
It's hard to love anybody else
When I loved you first

I loved, I loved you (Yeah)
I loved you first
I loved, I loved you

I met a girl last night
And everything came back
I wonder how long that this memory rollercoaster's gonna last

You were the first one to ride in my CJ-7
Top off, runnin' down an old backroad
First time to knock dust off the bottle
While it played on the radio
First buzz on my twenty first
First taste of goodbye hurt
It's hard to love anybody else

When I loved you first

I loved, I loved you (Yeah)
I loved you first
I loved, I loved you (Oh-oh)
I loved you first
I loved, I loved you
I loved you first (First)
I loved, I loved you
