

HEART HALF EMPTY

Chase Matthew

Pour em up shoot em down
Little more lost than I am found
Chasing my fears
Til I can't see clear
And I want you here

Need you after one too many
Three shots to try forgetting
All the reasons we didn't work out
Getting lost in the whiskey cloud
I'm sure I'll be back tomorrow
Still drinking about what we used to be
With a glass half full
But a heart half empty

How many times you gonna call me
It's like you knew that I was drunk
I didn't think that I would answer
But I hate the thought of us falling out of love

'Cause I need you after one too many
Three shots to try forgetting
All the reasons we didn't work out
Getting lost in the whiskey cloud
I'm sure I'll be back tomorrow
Still drinking about what we used to be
With a glass half full
But a heart half empty

Wondering where you are right now
Is the neon or that moonlight shining down
On my side of town
On my side of town

I need you after one too many
Three shots to try forgetting
All the reasons we didn't work out

I'm sure I'll be back tomorrow
Still drinking about what we used to be
Used to be
With a glass half full
But a heart half empty
