

My Drinking Song

Chase Matthew

This is my drinking song
Give me some tall and strong
It can be any day, any time, any place
Keep 'em coming all-night long

This one's for the drinking crowd
Line 'em up, we can knock 'em down
Here's to any good reason why you need to sip a little bit of something right now
Yeah, cheers to where the night might lead
This one's for you and me
Tell the DJ to turn it up some
And the bartender fill it up 'cause

This is my drinking song
Give me some tall and strong
It can be any day, any time, any place
Keep 'em coming all-night long
Even if the world might end
I'll be getting drunk with all my friends
With my drink in the sky
It's a hell of a ride
I'll be singing along
'Cause I don't care
This is my drinking song

Yeah, this is my drinking song

Yeah, here's to the ones that know
About them country roads taking you home
Here's to the ones that we salute
I'm talking 'bout the red, the white, the blue

This is our drinking song
Give me some tall and strong
It can be any day, any time, any place
Keep 'em coming all-night long
Even if the world might end
I'll be getting drunk with all my friends
With my drink in the sky
It's a hell of a ride
I'll be singing along
'Cause I don't care
This is my drinking song

This is my drinking song

So tell 'em turn it up
And we can double down
Let me see your cups
If you want to shut it down
We can go all damn night
So if you want to have a good time

This is my drinking song
Give me some tall and strong
It can be any day, any time, any place

Keep 'em coming all-night long
Even if the world might end
I'll be getting drunk with all my friends
With my drink in the sky
It's a hell of a ride
I'll be singing along
'Cause I don't care
This is my drinking song

Yeah, this is my drinking song
