Never Change

Chase Matthew

You said you loved me
But did you mean it?
Said I'm your only
And I believed it
Yeah, I thought that I could trust you
To be woman of your word
You're showing me the truth will always hurt

You said you'd never cheat
You'd never leave
You'd never walk away
Said you'd never be so petty
But you're lying to my face
Said you'd never change
You'd never change
You'd never change
You said you'd never change
You'd never change
You'd never change

You said you'd never be the kind of girl
To try to date my friends
I thought I found forever
But here I am again
Said you'd never change
You'd never change
You'd never change
You said you'd never change
You'd never change
Girl, why'd you change up on me?

We went from heartfelt to heartbreak
You probably can't tell
But it's a long damn way
From the first night I kissed you
And swore that it was love
To hearing 'bout you riding 'round
In someone else's truck

You said you'd never cheat
You'd never leave
You'd never walk away
Said you'd never be so petty
But you're lying to my face
Said you'd never change
You'd never change
You'd never change
You said you'd never change
You'd never change
You'd never change

You said you'd never be the kind of girl
To try to date my friends
I thought I found forever
But here I am again
Said you'd never change
You'd never change

You'd never change
You said you'd never change
You'd never change
Girl, why'd you change up on me?

You said you'd never cheat
You'd never leave
You'd never walk away
Said you'd never be so petty
But you're lying to my face
Said you'd never change
You said you'd never change

You said you'd never be the kind of girl
To try to date my friends
I thought I found forever
But here I am again
Said you'd never change
You'd never change
You'd never change
You said you'd never change
You'd never change
Girl, why'd you change up on me?
