

Nothing To Do With Me

Chase Matthew

And I been working on this old truck
Trying to get it running since you left town
Just another bridge
That I knew would never hold up
Another county line
Probably burning it down

And you could be
Driving down south
To a sandy beach
Doing anything to stay away from me
There ain't no telling where you might be

'Cause you want nothing to do with this boy that was standing in your driveway singing you a country song
Nothing to do with this truck that I'm staring in the rear view wondering where it all went wrong
Nothing to lose
Nowhere to be
I'm dreaming of you in that shotgun seat
It's stuck in my head
I'll play it again
It's easy to see
You want nothing to do with me

Nothing to do with me
Nothing to do with me

And I been holding on way too tight
But someone new is gonna hold your heart and
I keep telling myself I'm fine
Being here without you is the hardest part

I can pretend
I ain't been going off the deep end
Maybe you'll understand
That I could be a better man

You want nothing to do with this boy that was standing in your driveway singing you a country song
Nothing to do with this truck that I'm staring in the rear view wondering where it all went wrong
Nothing to lose
Nowhere to be
I'm dreaming of you in that shotgun seat
It's stuck in my head
I'll play it again
It's easy to see
You want nothing to do with me

'Cause you want nothing to do with this boy that was standing in your driveway singing you a country song
Nothing to do with this truck that I'm staring in the rear view wondering where it all went wrong
Nothing to lose
Nowhere to be
I'm dreaming of you in that shotgun seat

It's stuck in my head
I'll play it again
It's easy to see
You want nothing to do with me

Nothing to do with me

She wants
Nothing to do with me
Nothing to do with me
She wants
Nothing to do with me
Nothing to do with me
