

## Pull Up

Chase Matthew

There's a fire down here, off in the cut  
Four wheel drives out slinging that mud  
Ice cold beer, we'll shotgun one  
We ain't turning down til the sun comes up  
We just wanna party  
We're just getting started  
Tell em come on if they wanna have fun  
It's about to go down tell em all pull up

The paycheck just hit on deposit  
I got a little sunshine in my pocket  
And we got everybody meeting up at sonic  
Cruising in the bed of them trucks  
Got the subs in the jeep steady rockin'  
A country girl really looking like a goddess  
Friday, you know we ain't stopping  
'Til we see the sun come up

There's a fire down here, off in the cut  
Four wheel drives out slinging that mud  
Ice cold beer, we'll shotgun one  
We ain't turning down 'til the sun comes up  
We just wanna party  
We're just getting started  
Tell em come on if they wanna have fun  
It's about to go down tell em all pull up

All pull up, all pull up  
It's about to go down tell em all pull up  
There's a fire down here, off in the cut  
It's about to go down tell em all pull up

Got the boat straight coming out the water  
Southern belles keep it shaking like a bobber  
Yeah that's how we really do it in the holler  
We're just doing our thang  
Jack D got me sippin' on the whiskey  
Turn it up if you're gettin' down with me  
Ain't nobody out here from the city  
We ain't ever gonna change

There's a fire down here, off in the cut  
Four wheel drives out slinging that mud  
Ice cold beer, we'll shotgun one  
We ain't turning down 'til the sun comes up  
We just wanna party  
We're just getting started  
Tell em come on if they wanna have fun  
It's about to go down tell em all pull up

All pull up, all pull up  
It's about to go down tell em all pull up  
There's a fire down here, off in the cut  
It's about to go down tell em all pull up
