

# YOU TURN

Chase Matthew

Well there's a lot of pretty girls on Broadway right now  
And I'm finding out that I'll only make it halfway downtown  
I get to thinking 'bout you and there'll be a moment  
When my rear view starts making me focus  
On what I really want and then this truck will get a mind of its  
own  
A mind of its own and it's gonna make a

You turn into somebody new  
After a shot on the rocks you're a whole different mood, yeah  
You turn that radio up  
Your favorite song, sing along, got me falling in love babe  
You and me are night and day but girl me and this Chevrolet  
Got a thing for dangerous curves  
I'm 'bout to make a you turn

Maybe it'll be different with us this time around  
But I'll never know till I drive down that road I'll go down  
We go two steps forward and three miles back  
I'll throw the caution on the wind and run this train off the t  
racks and make a

You turn into somebody new  
After a shot on the rocks you're a whole different mood, yeah  
You turn that radio up  
Your favorite song, sing along, got me falling in love babe  
You and me are night and day but girl me and this Chevrolet  
Got a thing for dangerous curves  
I'm 'bout to make a you turn

I'm pulling up to your house now  
And I can't turn you down

I miss the way you turn into somebody new  
After a shot on the rocks you're a whole different mood, yeah  
You turn that radio up  
Your favorite song, sing along, got me falling in love babe  
You and me are night and day but girl me and this Chevrolet  
Got a thing for dangerous curves, yeah  
And you calling me right now would make me turn this truck arou  
nd  
Even though it'd crash and burn  
I'm 'bout to make a you turn, yeah
