

# Drop Your Tailgate

Chase McDaniel

There's a road that I know, it's a one-lane  
There's a cut through the woods to the creek bank  
There's a truck in the drive with a full tank  
Cup holder for a cold drink  
There's some cash on the dash from the work week  
Got a ten climbin' into the beach seat  
Cropped top t-shirt and the ripped jeans  
Got me higher than the high beams  
10PM, the party's rollin'  
Thumpin' through the stereo is somethin' that'll get her goin'

Bump that bass  
Drop your tailgate  
Speakers on ten 'til the doors shake  
Country girl makin' my heart break  
Burnin' me up like a backwoods bonfire  
Feel like a six point caught up in your headlights  
Baby girl drivin' me crazy  
Lovin' that way you drop that tailgate

Got a buzz from the cup full of whiskey  
Got a smile and it ain't 'cause I'm tipsy  
It's the sway in her hips from the back beat  
When I play somethin' country  
Midnight smoke is rollin' high  
The moonlight shinin' through the pines  
Is lightin' up her country side, so

Bump that bass  
Drop your tailgate  
Speakers on ten 'til the doors shake  
Country girl makin' my heart break  
Burnin' me up like a backwoods bonfire  
Feel like a six point caught up in your headlights  
Baby girl drivin' me crazy  
Lovin' that way you drop that tailgate

Drop it low, girl, to the floor, girl  
If there's a twang in ya thang, let it show, girl  
Drop it low now, to the floor now  
Get down go and show them city girls how  
Drop it low, girl, to the floor, girl  
If there's a twang in ya thang, let it show, girl  
Drop it low now, to the floor now  
Get down, go and show them city girls how

Drop your tailgate  
Speakers on ten 'til the doors shake  
Country girl makin' my heart break  
Burnin' me up like a backwoods bonfire  
Feel like a six point caught up in your headlights  
Baby girl drivin' me crazy  
Lovin' that way you drop that tailgate, yeah

Drop it low, girl, to the floor, girl  
If there's a twang in ya thang, let it show, girl  
Drop it low now, to the floor now

Get down go and show them city girls how  
Drop it low, girl, to the floor, girl  
If there's a twang in ya thang, let it show, girl  
Drop it low now, to the floor now  
Get down go and show them city girls how
