

Made It This Far

Chase McDaniel

Windshield's bigger than the rear view
I heard that on a TV show
Kinda thing that you kinda need to hear when you wanna give up but you can't
let go
Spend your life working
But nothing's ever working out
On your feet then you're back to your knees
'Cause you're building it up and it all falls down

When you hit the bottom, man, it seems bad
But there's a lotta people like me that

Can't turn back
We've made it this far
There's a little more beat in our broken hearts
From where we've been to where we are
Can't turn back
We've made it this, this far

We've made it this far

When you wanna be six-feet under
Feel like you've had enough
Feels so worthless
Think it'll hurt less
If you go to bed, don't wake back up
But you ain't ever let it take you out
So, you know you can make it right now

We can't turn back
We've made it this far
There's a little more beat in our broken hearts
From where we've been to where we are
We can't turn back
We've made it this, made it this

We ain't gotta start all over
Just look how far we've come
We've been through the worst already
Still got time before we're done

We can't turn back
We've made it this far
There's a little more beat in our broken hearts
From where we've been to where we are
We can't turn back
'Cause we've made it this far
We can't turn back
'Cause we've made it this far
We can't turn back
'Cause we've made it this, made it this far

Made it this far
E made it this far
