

Risk It All

Chase McDaniel

Somebody better lock me up
'Cause I'm about to throw it all away
You think I woulda had enough
But damn babe I'm helpless when you say
Come save me
Where you at
Come over
Get here fast
'Cause I need you

I know that it's dangerous to walk this line
You love me like you love me but you still ain't mine
Don't know if I'ma make it out alive this time
But tonight, I'm gonna risk it all
Go ahead pick up your call
Leave a trail of your clothes laying down the hall
Shake a few walls
No, it ain't right but damn
Tonight, I wanna risk it all

I'm gonna risk it all on the off chance
When the sun comes back, you'll still want me baby
And I don't wanna fall just to fall back, I've done that
But looking at ya who could blame me

I know that it's dangerous to walk this line
You love me like you love me but you still ain't mine
Don't know if I'ma make it out alive this time
But tonight, I'm gonna risk it all
Go ahead pick up your call
Leave a trail of your clothes laying down the hall
Shake a few walls
No, it ain't right but damn
Tonight, I wanna risk it all
Tonight, I wanna risk it all

'Cause I'm helpless when you say
Come save me
Where you at
Come over
Get here fast
'Cause I need you

I know that it's dangerous to walk this line
You love me like you love me but you still ain't mine
Don't know if I'ma make it out alive this time
But tonight, I'm gonna risk it all
Go ahead pick up your call
Leave a trail of your clothes laying down the hall
Shake a few walls
No, it ain't right but damn
Tonight, I wanna risk it all
