

# ELDORA

Chase Rice

Can you believe three years ago  
We were deep in love and deep in snow?  
We were Stage Stop beer and midnight blue  
In that queen-size bed, I swore to you  
But we both knew that lie we had to keep

It's eleven hundred miles from Tennessee to Colorado  
And I'm already there here in my mind  
Got almost everything I need in this packed up El Dorado  
Oh Eldora, I'll be seeing you tonight

I just crossed the Kansas line  
And God, it took me back in time  
When I was headed east instead of west  
Just holding on to doing my best  
Counting down them mile marker signs

It's eleven hundred miles from Tennessee to Colorado  
And I'm already there here in my mind  
Got almost everything I need in this packed up El Dorado  
Oh Eldora, I'll be seeing you tonight

In the distance, I see Denver lights  
Between the pines and Bingham Red Rock high  
Even nights like that couldn't save us then  
So we said goodbye for what we did  
But we were just two kids with too much life to live

It's eleven hundred miles from Tennessee to Colorado  
And I'm already there here in my mind  
Got almost everything I need in this packed up El Dorado  
Oh Eldora, I'll be seeing you tonight
