

# Fireside

Chase Rice

Who's gonna keep you warm at night  
Whatcha gonna do when the sun don't rise  
Me, I'll be right here just playin' my song  
Won't you swing on over strike this match book on, oh

Don't you know it's gonna shine, yeah  
Come on and be my light  
Let's spark it up like star dust  
Put the flame on my heart and

Let it burn  
Love me on the fireside  
Come on baby let it burn  
Love me on the fireside  
Come burn with me  
Burn with me  
Burn with me  
Burn with me  
Come burn with me

Strike it now while the iron's still red  
Take me down to the end of my cigarette  
I know it might go up in smoke  
But let's get dangerous and give this thing one more toke and

Let it burn  
Love me on the fireside  
Come on baby let it burn  
Love me on the fireside  
Come burn with me  
Burn with me  
Burn with me  
Burn with me  
Burn with me

Don't you know it's gonna shine, yeah  
Come on and be my light  
Let's spark it up like star dust  
Put the flame on my heart and

Let it burn  
Love me on the fireside  
Come on baby, let it burn  
All the way to the fireside  
Come burn with me  
Burn with me  
Come burn with

Where them young coyotes cry  
Down that west mountain side  
Your neck and my lips collide  
Ash ain't the only thing that's fallin' tonight  
Burn with me  
Burn with me  
Burn with me  
Come burn with me
