

# Foolin'

Chase Rice

Just cause we come here every weekend  
Don't mean you want me  
And I wouldn't want you to  
Just cause you ask me who I'm seeing  
Don't mean you're really kinda wishin' it was you

And we'll keep on dancing 'round the truth  
Cause we

Don't wanna stay all night  
Don't wanna go home now  
A couple drinks don't mean  
We're gonna knock a bottle out  
Yeah, we're just catching up  
That's all that's going down  
In the morning this won't be  
All we can think about  
We know what we're doing  
But who are we foolin'

You never drive me crazy  
But if you did, I'd be crazy over you  
And if I was, who could blame me?  
You're lookin' at me like the  
Only one in the room

Ain't that the truth  
So what are we gonna do?  
Cause we  
Don't wanna stay all night  
Don't wanna go home now  
A couple drinks don't mean  
We're gonna knock a bottle out  
Yeah, we're just catching up  
That's all that's going down  
In the morning this won't be  
All we can think about  
We know what we're doing  
But who are we foolin'

We

Don't wanna stay all night  
Don't wanna go home now  
Another drink and I might  
Go and let the truth spill out  
Say we're just catching up  
We know what's going down  
In the morning you'll be  
All that I can think about  
We know what we're doing  
Yeah, we know what we're doing  
But who are we foolin'
