

## Life Part Of Livin'

Chase Rice

I've had a lot of good years I missed as they rolled on by  
Now, here I am, just a kid goin' on 35  
I've played my songs and played my part  
Played it wrong and played some hearts  
Lived the highs and lows, in-betweens of this thing called life

I learned college ain't near long enough  
And Natty Light's the good stuff  
Learned to find a damn good dog and a damn good girl  
I learned losin' Dad can make ya pretty tough  
Becomin' one makes you grow on up  
And the color pink and curls can rock a grown man's world  
I learned Sunday mornin' ain't the only time for forgivin'  
And love's where you find the life part of livin'

Y'all, a six string and some words is worth the time  
When you can't find an empty seat, and lighters fill the night  
And call your mama, call your friends  
Make some new ones, make amends  
And when the tears build up, just let 'em fly

I learned college ain't near long enough  
And Natty Light's the good stuff  
I learned to find a damn good dog and a damn good girl  
I learned losin' Dad can make ya pretty tough  
Becomin' one makes you grow on up  
And the color pink and curls can rock a grown man's world  
I learned Sunday mornin' ain't the only time for forgivin'  
And love's where you find the life part of livin'

When the Lord smiles, just take it in  
When the Devil swings, take it on the chin  
When the going gets tough hit your knees  
When you got a song to sing, sing

I learned college ain't near long enough  
And Natty Light's the good stuff  
Learned to find a damn good dog and a damn good girl  
I learned losin' Dad can make ya pretty tough  
Becomin' one makes you grow on up  
And the color pink and curls can rock a grown man's world  
I learned Sunday mornin' ain't the only time for forgivin'  
And love's where you find the life part of livin'
