

But I'll Do It Again

Chase Shakur

Heart fell, wrist froze
A lot of stories untold
Why you in my face for?
Lost a lot face for it
Watch me jump face forward
Some shit I had to wait for
Uphill space doors
A lot of mountains un-toured

Baby, let me do again
Do it again
Jouries past but you were a glace
Feet in the sand
Guess a nigga fucked up the plans
Warned you in advance
Told you the fuck up again
Better as friends
Ask me why I left you stand
Now you don't need me
You wanna live freely
