

(Even though you think I ain't shit, I ain't leaving)

Run nights alone
Run nights with you in mind
Thought it was an even exchange of actions on sight
How can I explain how I'm not bad for you?
Know I broke your heart and now I'm sad for you
Know you wanna make me cry a river for you (Bitch, I'm shameless)
Know it hurt, but shit, I'll say it to you
Make it painless, painless
Bitch, I'm dangerous, dangerous
Think it's better if you know that
Shit, I'm still trying to ease your heart

Ease your heart
Know you break apart
Whenever we apart, apart
Can't go (It's not you, it's me)
You been scarred
No, it's not my fault
I'm all up in your apartment (Don't want me to go)

Had some sex, some safe
Shook that ass, lost faith
No, I don't play, no
Plus, you wanna repeat
Again and again
Know you got problems and such
Say that you're lonely for what?
I just wanna ease your mind

Ease your heart
Know you break apart
Whenever we apart (Apart)
Can't go
