exit 65

Chase Shakur

Bitch, I been gone
What the fuck you want?
I've been outta sight
Getting myself right
Myself right

I'll go straight up to your place, damn near faded
I might, I might
You say "save it," might switch locations
You don't want love from the city no more

I keep you close, you want closure
Shit, I need closure, you need me closer

Exit 65 towards you
You know I've been on a wave
You know this shit ain't a phase
Shit, I'm saving face

Exit 65 towards you
You know I've been on a wave
You know this shit ain't a phase
Shit, I'm saving face
