

no more cryin'

Chase Shakur

I come inside this weather
I show you that you're safe
Why can't I reassure your problems away?
Let me try to reshape
So I can change all my ways
Just to fit inside you
Fit inside

I watch you die inside my arms
You said it feel like heaven
But you push away
I might let go, but I don't want to, no

Thoughts of losing you
Grace my mind too oftenly
More than it should
Let my lens be clearer on the other side
Let me readjust

Been living out my grandma's suitcase
Ain't no saving right now
As these tears fall from your face
No more cryin'
