

pray slow

Chase Shakur

I like sippin' slow, I let go
Don't like liquor though, rather smoke
Actin' difficult, yes, I know
I'm on a mission though, miracles
I like sippin' slow, I let go
Don't like liquor though, rather smoke
Actin' difficult, yes, I know
I'm on a mission though, miracles

Got too much on my mind
I guess I need a break
Tried to stay out the way, nowadays
But I've been fine
Took your space to just to heal, it take time
No, I wasn't shading you, no
Had to take time to grow
And I pray that you know
I pray that you know
'Cause now

I like sippin' slow, I let go
Don't like liquor though, rather smoke
Actin' difficult, yes, I know
I'm on a mission though, miracles
I like sippin' slow, I let go
Don't like liquor though, rather smoke
Act too difficult, yes, I know
On a mission though, miracles

(I like sippin' slow, I let go)
(Don't like liquor though, rather smoke)
(Act too difficult, yes, I know)
(I'm on a mission though, miracles)

Excuse me, first of all
I don't know why you're not answering your phone
I don't know what your problem is
I need you to pick up
I don't know where you at
Or what's up with you
Yeah, call me back
