

Speed

Chase Shakur

Know my back against the wall
We don't need to get involved
Pick myself up when I fall
With my dogs we break the law
Run through lights to free it all
Wanna come see you, but times involved
Plus the trust issues we haven't solved
But let it all go, it's worth the cause

Put our egos to the side
Like are we down to ride
Shit we don't need a guide
Cause this is our life
Our life, we running way too much
Lines have been blurred too much
Times has been wasted enough

I know I need to come often
Often, and all you say babe is speed
You better meet my speed
Meet my speed
Meet my speed
You better meet my speed
My speed, meet my speed

You better meet my speed
Meet my speed
Meet my speed
You better meet my speed
My speed, meet my speed

You better meet my speed
Meet my speed
Meet my speed
You better meet my speed
My speed, meet my speed

Say I need to come often
Often, often, often
Often often, often
