

WANT U

Chase Shakur

Take tonight, I can change your mind
Rather you take your time on it
Been outside, but I rather take you down indoors
Baby, I'm tryna get T'd wit' ya
Know I wanted peace for us
And I don't want to leave ya
And you don't want that neither
I just want ya, I just want ya

She said, "I just want you, you, you, you"
She said, "I just want you, you, you, you"
She said, "I just want you, you, you, you"
She said, "I just want you, you, you, you"

She love it when I take that Chanel off
Eyes holding secrets, they tell all
On her knees, look like she begging, huh
We go back and forth, but she still staying, huh
She trying to leave the A for now
Trying to find her heart so she can stay around
She not trying to play around
Said she been there, done that
Done that, she know where I'm at
That's why she always call me back
I just want ya, I just want ya

She said, "I just want you, you, you, you"
She said, "I just want you, you, you, you"
She said, "I just want you, you, you, you"
She said, "I just want you, you, you, you"

"I just want you, you, you, you, you, you"
You, you, you, you, you, you
She said, "I just want—," she said, "I just want you"
I just want ya, I just want ya
She said, "I just want—"
I just want—
I just want—
I just want—
